

## ENVIRONMENTAL ASSISTANCE RESOURCES for US ARMY GARRISON FORT BUCHANAN

On April 25 and 26, 2017, Mr. Michael Prescott, a representative from the U.S. Environmental Protection Agency (EPA) Region 2, conducted a consolidated multi-media inspection of the US Army Garrison Fort Buchanan facility. Upon reviewing Mr. Prescott's findings and facility response to Mr. Prescott's post inspection follow up, we'd like to recommend the following environmental assistance resources.

- Regarding your fuel transfer associated with the two 20,000-gallon UST at AAFES, the following Spill Prevention Control Countermeasure (SPCC) resource may be helpful, SPCC Guidance for Regional Inspectors, <https://www.epa.gov/oil-spills-prevention-and-preparedness-regulations/spcc-guidance-regional-inspectors>, specifically, **Chapter 2.8.3 Underground Storage Tanks**, and a sample SPCC Plan is found at **Appendix G** Sample Bulk Storage Facility Plan, **Section 3-10** provides an example tank truck loading/unloading procedure
- There were six air conditioning and refrigeration units with more than 50 pounds of regulated refrigerants reported by facility representatives during the EPA inspection to still be present and two of these units were planned to be replaced this year. The EPA website for Stationary Refrigeration & Air Conditioning may have information helpful to your situation, <https://www.epa.gov/section608>
- EPA's Compliance Assistance Center related to Reciprocating Internal Combustion Engine (RICE) include:
  - Combustion Portal, <http://www.combustionportal.org/>
  - Healthcare Resource Center provides federal environmental regulatory guidance for boilers, <http://www.hercenter.org/facilitiesandgrounds/boilers.cfm>
- For fleet maintenance operations, please know that EPA has resource centers dedicated to transportation/fleet that may be of interest to you, such as:
  - <https://www.fedcenter.gov/> contains resources on alternative fuels, fuel calculators, Executive Orders, organizations, lessons learned and much more, <https://www.fedcenter.gov/programs/transportation/>
  - "Virtual Shops" for spray booth, collision repair, repair shop, paint mixing, <http://ccar-greenlink.org/blog/welcome-to-the-ccar-greenlink-virtual-shops/>
  - Transportation Portal, <http://www.tercenter.org/>
  - Paint & Coating Resource Center, <http://www.paintcenter.org/>
  - Overall, as a federal agency we encourage you to become familiar with the many benefits and resources that the FedCenter has to offer you, <https://www.fedcenter.gov/>
